

910Telecom to Offer Direct Access to Console's Software and Interconnection Platform

Denver, CO – September 9, 2015 – The Denver Gas and Electric Building Meet-Me-Room together with [910Telecom](#) at 910 15th Street in downtown Denver announced today that the company has joined the Console Data Center Partner Program to provide customers access to [Console](#), the enterprise software and interconnection platform that is changing the way businesses directly connect to their customers, vendors, and partners.

The Console Data Center Partner Program provides a turnkey solution for data center operators to offer customers direct access to Console for network-to-network and enterprise-to-enterprise collaboration globally. The partner program provides the necessary support to make a datacenter Console-enabled as well as marketing resources to highlight their business.

The Console software and interconnection platform provides a secure, simple, and faster way for companies across the globe to directly connect to business-critical cloud providers, SaaS providers, and partners. By combining direct access from within a Console-enabled datacenter with Console's network automation technology, customers gain access to a global ecosystem without the configuration complexity.

"910Telecom is excited to have the Console platform directly accessible in our Meet Me Room. This gives our clients a simple way to directly connect to critical business resources and it provides a more secure and flexible and cost effective way for our cloud and SaaS customers to onboard new business and extend their reach globally," says Nancy Casados Executive Manager of DGEB Management.

"We are excited to welcome 910Telecom to the Console Data Center Partner Program. With this collaboration, we will provide 910Telecom's customers with direct access to other network and cloud service providers that are important to meet their business demands and stay ahead of the competition," says Al Burgio, CEO, Console.

About 910Telecom

[910Telecom](#) is the largest and busiest carrier-neutral facility located in the heart of downtown Denver and together with Denver Gas & Electric Meet Me Room, the building's operating partner, provide the premier telecommunications and network

interconnect hub for service providers, content caching, cloud and SaaS companies that want to serve the greater Rocky Mountain region. This historic building acts as the distribution hub for servicing large business and the consumer population in the state of Colorado. Enterprises and service providers benefit from hundreds of carriers wireless networks and ISPs that populate the building's Meet-Me-Room.

About Console Inc.

Console Inc., an IIX company, was founded to change the way enterprises connect to their customers, vendors, and partners. Console's enterprise software and interconnection platform enables both network-to-network and enterprise-to-enterprise collaboration globally. The Console platform provides enhanced network security, improved performance, and faster business-to-business direct connect. For more information about the Console Early Access Program, visit <http://www.console.to>.

IIX Inc. is headquartered in Silicon Valley, California. In March 2015, IIX acquired IX Reach Limited, further expanding its global interconnection footprint into more than 150 Points of Presence (PoPs) across North America, Europe, Asia, and the Middle East. IIX is privately held and backed by New Enterprise Associates (NEA) and DOT Capital.

IIX is a registered trademark of IIX Inc. All other trademarks are the property of their respective owners.
