**BoldGrid**

# Press Release

## **BoldGrid Joins Softaculous to Automate BoldGrid Installations for Most Major Platforms**

**Los Angeles, CA, April 3, 2017:** We are excited to announce that [BoldGrid](#) is now included in [Softaculous](#), the industry leading Auto Installer for cPanel, Plesk, DirectAdmin, InterWorx, and H-Sphere control panels. BoldGrid eliminates tedious time-consuming developer tasks and includes user friendly design tools that anyone can use, enabling users to launch and manage WordPress websites in a fraction of the time it would otherwise require. Softaculous is leveraging BoldGrid as a new selectable option while using the convenient one-click installer to setup a WordPress site.

"We are very excited to have BoldGrid included in the, more than, 400 scripts supported by Softaculous." says Todd Robinson, Chief Executive Officer. "BoldGrid is a perfect addition to the auto installer that shares the same overall goal of saving webmasters and web hosts time and frustration by automating tedious tasks and allowing users to focus on the things that matter most."

Thanks to Softaculous, BoldGrid is now easier to access than ever. Server administrators can take advantage of BoldGrid's automation by enabling the BoldGrid plugin using the instructions at <http://www.softaculous.com/news/scripts/boldgrid-inspirations-plugin-added-in-wordpress-12040.html>. Users interested can view the [features](#) or get [free trial access](#) to BoldGrid.
