

PRESS RELEASE

**BridgeVoice™ Launches Its Automated Carrier Platform,
BridgeVoice Pluto**

*Global Leader in Retail and Wholesale Carrier Business Unveils Differentiated
Worldwide Routing, Switching and Termination Services*

Kew Gardens, NY – May 10, 2017 – [BridgeVoice™](#), a global leader in retail and wholesale Voice and VoIP termination services, and an integral part of multinational telecom technology and carrier services provider [Bankai Group](#), today announces the launch of its Automated Carrier Platform, BridgeVoice Pluto.

An online platform, BridgeVoice Pluto offers one-stop trading and settlement for voice and SMS. With a quality-based routing mechanism offering competitive pricing and real-time prepaid and near to real-time postpaid billing solutions, the platform provides carriers an exceptional gateway and class-4 switching, generating stable revenue streams in unstructured telecom ecosystems.

The BridgeVoice Pluto assists in buying, selling and trading high-end, wholesale VoIP termination services and routes. It enables resellers to brand and customize the fully supported, scalable and modular carrier platform to offer a secure VoIP transaction portal with minimal CAPEX and reduced OPEX, resulting in increased revenue. Customers also gain full transparency into network and termination activities across multiple carriers. On the network side, customers obtain preferred choice routing, assured quality route termination and 100-percent Calling Line Identification support.

“As BridgeVoice expands its global carrier services, we decided at the launch of our Automated Carrier Platform and White Label offering that these services required a name to convey that we connect the world,” explains Bankim Brahmhatt, CEO and President of BridgeVoice. “BridgeVoice Pluto suggests the vision of an interconnected and vast universe that is continuously expanding. Our automated platform provides VoIP service providers and carriers worldwide with access to a seamless, secure web-based portal, which similarly will continue to expand and connect a vast universe of customers and partners.”
