

ITW 2017 - Closing Statement

This year CHT Holdings attended ITW with the objective to negotiate new deals and interconnections, but also to create stronger connections with our peers on completely different levels; as a company that continues to advance its Corporate Social Responsibility, we know that key partnerships with our telecommunication peers can make a large impact on the communities we participate in, as well as to ensure those effects are sustainable and long lasting.

Despite the multiple changes which the telecommunications industry has been experiencing for the last few years, CHT Holdings remains committed to its continuous improvement as a key player not just in the telecommunications industry, but all the other industries in which we take part (<http://cht-holdings.com/divisions/>).

As our first year sponsoring the International Telecommunications Week as a Holdings group, CHT Holdings would like to thank our business partners and all of our peers who participated in this year's show, especially Capacity Media for their support with our meeting room setup and allowing us to have over 80 ft. of exposure.

Here is to another successful year!
